ABSTRACT

This report provides information on degree and certificate programs offered and student program completions for 1988-89 in North Dakota's postsecondary educational institutions, both public and private. An introductory section lists the members of the North Dakota State Board of Higher Education; the chief administrators of North Dakota's four-year and two-year institutions; the highest level of program offering at each of North Dakota's higher education institutions; and institutional charges for tuition, room, board, and fees. Then, for each postsecondary institution, program offerings are listed, along with the Classification of Instructional Programs (CIP) code and the type of certificate, diploma, or degree granted. A list of all programs offered at all the institutions is also included, organized by CIP code. The final section of the report covers student completions records, for each institution, the number of certificates, diplomas, or degrees granted in each program area, organized by CIP code. (JDD)

INTRODUCTION

This report provides information on degree and certificate programs offered and student program completions for fiscal year 1988-89 in North Dakota postsecondary educational institutions.

Institutional programs are coded, in accordance with the Classification of Instructional Programs (CIP Code) system provided by the Center for Statistics branch of the United States Department of Education. To assist readers, programs have been organized by level of offering: one and two year, bachelor's or graduate. Information included was provided by administrators at each institution.

Individuals desiring additional program information about vocational-technical programs should check the directory published by the State Board for Vocational Education. Students desiring information about institutional tuition, fees, room and board rates and financial aid should contact the institutions admissions office directly.

DEFINITIONS

Program Completed

A completed program is one in which the individual has met all of the requirements to obtain a degree or certificate in that field of study. This number may vary slightly from degrees granted since one person may complete two programs yet receive only one degree. This publication reports only programs completed.

Education Codes

CIP Codes with a 13 prefix indicate a program in education. Fields of study that offer an option that includes teaching certification list the corresponding education CIP Code in parentheses. Individuals looking for education programs should look under both the 13 code and the field of study.
